December 28<sup>th</sup> 2021

Dear Dr. Kühntopf, dear Michael, Shalom שלום.

I would like to wish you and your family on my behalf, on behalf of our new association and on behalf of my colleague Ari Lipinski good health and a happy and successful new year 2022.

I take this opportunity to express my and our deep gratitude and appreciation for your great help and support and for your wonderful and professional creation of the Jewiki online encyclopedia. We take every opportunity to tell people in Israel about the vast quantity and the profound quality of the documentation treasures which you have so diligently collected and which you present and make accessible worldwide in many languages. It is a substantial contribution to the world-wide efforts to stand against Shoa denial and against antisemitism. We commend you for this action.

I'd like to tell you that we are beginning to create in Israel a new exhibition of our own in Hebrew and English about the following topic:

"The HeChalutz Hachsharot in Germany 1933-1947 / the following generations"

Our exhibition will be under the motto of the Shoah survivors who came to Israel, started families and built the wonderful State of Israel under the motto of "MiShoa Letkuma" / "From Shoah to revival".

We hope to be in touch with you in this context soon, and to expand our cooperation in the future.

We send you from Israel our sincere and grateful greetings and wish you and your family good health and all the best in all your endeavors.
